

Sypris and NEC Asia Pacific to Develop Cyber Security Lab for the Singapore Government

April 1, 2014

Multi-Year Cyber Security Contract

TAMPA, Fla. & SINGAPORE, Apr 01, 2014 (BUSINESS WIRE) -- Sypris Electronics, LLC, a subsidiary of Sypris Solutions, Inc. (nasdaq/nm:SYPR) and a leader in high-end, global cyber security solutions, and NEC Asia Pacific, a leading infocomm technology provider, announced today that their team was awarded a contract to develop a Cyber Security Laboratory for the Singapore Government. The contract will involve deploying a simulation-based training and modeling platform that will provide a safe, realistic hands-on environment for the participants to hone their skills in countering cyber-attacks.

The award is a result of a strategic partnership between NEC Asia Pacific and Sypris Electronics to deliver a joint global product and service offering.

"The Sypris Cyber Range provides the critical platform required for organizations to simulate today's increasingly complex cyber threats," stated John Walsh, President of Sypris Electronics. "The Range allows customers to seamlessly integrate and continuously upgrade best of breed capability and training curriculums from our world class partners to make certain that their employees stay ahead of their cyber adversaries."

"With the increasingly complex and sophisticated attacks from cyber criminals, an organization faces a multitude of cyber security risks to its IT systems, ranging from web defacement and malware infections to network and operation system attacks. NEC, together with Sypris, will bring together the latest technologies to jointly deliver a solution that will address the cyber security needs of the Singapore government, to prevent and mitigate against potential attacks," said Toshiya Matsuki, Chief Executive Officer, NEC Asia Pacific.
