

Sypris Receives 2015 Supplier Excellence Award

November 25, 2015

Performance on Northrop Grumman F-35 Joint Strike Fighter Program

TAMPA, Fla.--(BUSINESS WIRE)--Nov. 25, 2015-- Sypris Electronics, LLC, a subsidiary of Sypris Solutions, Inc. (Nasdaq/GM: SYPR), announced today it has received the 2015 Northrop Grumman Supplier Excellence Award for its manufacturing and related engineering support of the F-35 Joint Strike Fighter program. Sypris Electronics was one of 24 companies selected to receive the award out of 5,600 Northrop Grumman Information Systems suppliers.

The Supplier Recognition Program acknowledges suppliers that continuously provide outstanding support to Northrop Grumman and its Information Systems sector. Candidates are evaluated based on five categories: schedule, management, technical, financial and quality.

"Northrop Grumman congratulates Sypris Electronics as a 2015 Supplier Excellence Award winner," said Cynthia Hyland, Vice President, Global Supply Chain. "Their contributions are extremely valuable to Northrop Grumman and the critical mission of our Joint Strike Fighter customer."

"We have been involved in the manufacturing and test of various high-end electronics for the Joint Strike Fighter program with Northrop Grumman for many years," said Jim Long, Vice President of Electronic Manufacturing Services for Sypris Electronics. "This award confirms our dedication and commitment to providing outstanding service and technical support for critical programs and strategic partners."

"Our team appreciates this prestigious award in recognition of our hard work and dedication to supporting Northrop Grumman, our nation and the war fighter on the Joint Strike Fighter program," stated John Walsh, President of Sypris Electronics. "We are committed to continuous improvement and dedication in supporting Northrop Grumman on this and all other programs."

Sypris is a global, integrated security solutions provider serving the Government and Commercial sectors. Sypris is well known for leadership in cryptography, key management, identity authentication and access management, cyber security operations, and associated professional services.
