

Sypris Achieves ISO 13485 Registration from NSF-ISR

May 25, 2017

Quality Standards for Safe and Effective Medical Devices

TAMPA, Fla.--(BUSINESS WIRE)--May 25, 2017-- Sypris Electronics, LLC, a subsidiary of Sypris Solutions, Inc. (Nasdaq/GM: SYPR), announced today that it has achieved ISO 13485 re-certification from NSF-ISR, a division of the global public health organization NSF International.

ISO 13485 is the established quality standard for manufacturers of medical devices and has been established by the International Organization for Standardization (ISO), which is the largest developer and publisher of international standards for the implementation of Quality Management Systems.

The primary objective of ISO 13485 is to harmonize medical device regulatory requirements for quality management systems. The standard is specific to organizations providing medical devices or services, regardless of the type or size of the organization. Based on the ISO 9001 process approach to quality management, ISO 13485 focuses on what manufacturers must do to provide safe and effective medical devices.

"By achieving ISO 13485 registration, Sypris Electronics is once again demonstrating its commitment to quality and safety," said Andy Weinbach, Global Managing Director, NSF-ISR.

"The ISO 13485 registration allows us to leverage our operations and engineering capabilities to further expand our presence in the medical device industry," commented Jim Long, Vice President & General Manager of Sypris Electronics. "This re-certification serves as the cornerstone for our ongoing commitment to service the medical device industry."

Sypris Electronics is a trusted provider of electronic solutions, addressing customers' needs for building complex, mission-critical electronic and electro-mechanical devices and integrated systems. Backed by 50 years of experience, Sypris' engineering and manufacturing services span our customers' product life cycle all within a culture of continuous improvement and Six Sigma/Lean thinking. Partners from multiple agencies and tier one companies in Military (DoD), Space, Medical, Civil Avionics, Telecom, and Industrial markets team with Sypris to deliver high-reliability electronics built with strict adherence to regulated requirements.
