

Sypris Wins Awards to Support Subsea Cable Systems

May 20, 2021

Power Supplies for High-Reliability Communications Networks

TAMPA, Fla.--(BUSINESS WIRE)--May 20, 2021-- Sypris Electronics, LLC, a subsidiary of Sypris Solutions, Inc. (Nasdaq/GM: SYPR), announced today that it has recently received follow-on awards from a global undersea cable provider to manufacture and test electronic power supply modules for multiple high-reliability undersea communication networks. Production is expected to begin in 2021 and continue into 2022. Terms of the agreement were not disclosed.

The awards are for the production of a variety of electronic assemblies used in flexible and scalable ultra-long-haul undersea networks. Given the significant growth in digital services and data consumption, these undersea cable systems offer the opportunity to seamlessly connect to the world's top interchange points and content hubs for the extension of service globally. These next generation, high-capacity and high-speed systems span thousands of kilometers undersea.

"The subsea electronics market continues to be a great strategic fit for our mission-critical product application focus," said Jim Long, Vice President & General Manager of Sypris Electronics. "Our customer is a leader in undersea telecom installations, and we are excited to be expanding our partnership with this award."

Sypris Electronics is a trusted provider of electronic solutions, addressing customers' needs for building complex, mission-critical electronic and electro-mechanical devices and integrated systems. Backed by 50 years of experience, Sypris' engineering and manufacturing services span our customers' product life cycle all within a culture of continuous improvement and Six Sigma/Lean thinking. Partners from multiple agencies and tier one companies in Military (DoD), Space, Medical, Undersea, and Industrial markets team with Sypris to deliver high-reliability electronics built with strict adherence to regulated requirements. Forward Looking Statements

This press release contains "forward-looking" statements within the meaning of the federal securities laws. Forward-looking statements include our plans and expectations of future financial and operational performance. Such statements may relate to projections of the company's revenue, earnings, and other financial and operational measures, our liquidity, our ability to mitigate or manage disruptions posed by COVID-19, and the impact of COVID-19 and economic conditions on our future operations, among other matters.

Each forward-looking statement herein is subject to risks and uncertainties, as detailed in our most recent Form 10-K and Form 10-Q and other SEC filings.

Briefly, we currently believe that such risks also include the following: the impact of COVID-19 and economic conditions on our future operations; possible public policy response to the pandemic, including legislation or restrictions that may impact our operations or supply chain; our failure to successfully complete final contract negotiations with regard to our announced contract "orders", "wins" or "awards"; our failure to successfully win new business; the termination or non-renewal of existing contracts by customers; our failure to achieve and maintain profitability on a timely basis by steadily increasing our revenues from profitable contracts with a diversified group of customers, which would cause us to continue to use existing cash resources; the cost, quality, timeliness, efficiency and yield of our operations and capital investments, including the impact of tariffs, employee training, working capital, production schedules, cycle times; dependence on, retention or recruitment of key employees and distribution of our human capital; disputes or litigation involving governmental, supplier, customer, employee, creditor, warranty claims; our inability to develop new or improved products or new markets for our products; cost, quality and availability or lead times of raw materials and electronic components; our reliance on a few key customers, third party vendors and sub-suppliers; inventory valuation risks including excessive or obsolescent valuations or price erosions of raw materials or component parts on hand or other potential impairments, non-recoverability or write-offs of assets or deferred costs; failure to adequately insure or to identify product liability, environmental or other insurable risks; unanticipated or uninsured disasters, public health crises, losses or business risks; volatility of our customers' forecasts, scheduling demands and production levels which negatively impact our operational capacity and our effectiveness to integrate new customers or suppliers, and in turn cause increases in our inventory and working capital levels; the costs of compliance with our auditing, regulatory or contractual obligations; our inability to patent or otherwise protect our inventions or other intellectual property from potential competitors; adverse impacts of new technologies or other competitive pressures which increase our costs or erode our margins; U.S. government spending on products and services, including the timing of budgetary decisions; changes in licenses, security clearances, or other legal rights to operate, manage our work force or import and export as needed; cyber security threats and disruptions; inaccurate data about markets, customers or business conditions; or unknown risks and uncertainties. We undertake no obligation to update our forward-looking statements, except as may be required by law.
