SYPRIS SOLUTIONS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Nature of Business

Sypris is a diversified provider of outsourced services and specialty products. The Company performs a wide range of manufacturing, engineering, design, and other technical services, typically under multi-year, sole-source contracts with corporations and government agencies in the markets for truck components and assemblies and aerospace and defense electronics. The Company provides such services through its Industrial and Electronics Groups (Note 12).

(2) Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of Sypris Solutions, Inc. and its wholly-owned subsidiaries (collectively, "Sypris" or the "Company") and have been prepared by the Company in accordance with the rules and regulations of the Securities and Exchange Commission. The Company's operations are domiciled in the United States (U.S.), Mexico and Denmark and serve a wide variety of domestic and international customers. All significant intercompany transactions and accounts have been eliminated. These unaudited consolidated financial statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state the results of operations, financial position and cash flows for the periods presented, and the disclosures herein are adequate to make the information presented not misleading. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results for the three months ended April 3, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, and notes thereto, for the year ended December 31, 2010 as presented in the Company's Annual Report on Form 10-K.

Certain prior period amounts have been reclassified to conform to the current period presentation.

(3) Recent Accounting Pronouncements

Any new accounting pronouncements issued but not yet effective have been deemed not to be relevant to the operations of the Company. Accordingly, the effects of any such undisclosed new accounting pronouncements are not expected to have any impact on the results of operations or financial position of the Company.

(4) Discontinued Operations

On October 26, 2009, the Company sold all of the stock of its wholly owned subsidiary, Sypris Test & Measurement, for \$39,000,000, of which \$3,000,000 was deposited in an escrow account in connection with certain customary representations, warranties, covenants and indemnifications of the Company. During 2010, the Company was made aware of a potential indemnification claim from the purchaser of Sypris Test & Measurement. The Company estimates that its total liability arising from this claim will not exceed \$946,000, of which \$450,000 was recorded during the first quarter of 2011. The Company has paid \$196,000 related to the claim as of April 3, 2011. The remaining amount has been reserved in accrued liabilities on the Company's consolidated balance sheets. There can be no assurance that similar potential claims will not emerge in the future or that relevant facts and circumstances will not change, necessitating future changes to an estimated liability. This charge is included in discontinued operations, net in the consolidated statement of operations.

[Table of Contents](#)

(5) Nonrecurring income

During the three months ended April 3, 2011, the Company recognized a gain of \$3,000,000 in connection with the settlement of a dispute regarding prior year volumes with one of its customers.

(6) Restructuring, Impairments and Other Nonrecurring Charges

As announced during the fourth quarter of 2008, the Company committed to a restructuring program, which included the closure of its Kenton, Ohio facility, significant reductions in the workforce in its Marion, Ohio facility and the integration of its Electronics Group subsidiaries. The purpose of the restructuring program is to reduce fixed costs, accelerate integration efficiencies, exit certain unprofitable product lines and significantly improve operating earnings on a sustained basis. As a result of the Company's restructuring program we recorded a gain of \$253,000 related to these initiatives during the three months ended April 3, 2011, which is included in restructuring expense, net on the consolidated statement of operations. The gain for the period consisted of a \$381,000 gain on the sale of assets that had previously been impaired partially offset by equipment relocation costs and mothball costs associated with closed or partially closed facilities. During the three months ended April 4, 2010, we recorded charges of \$413,000 related to these initiatives, which included \$8,000 for severance and benefit-related costs, \$99,000 related to equipment relocation costs, and \$306,000 for other costs, primarily related to mothball costs associated with closed or partially closed facilities. Of the expected aggregate \$55,532,000 of pre-tax costs for the total program, the Company expects \$16,373,000 will be cash expenditures, the majority of which has been spent as of April 3, 2011. A summary of the pre-tax charges is as follows (in thousands):

	Total Program	Costs Incurred		Remaining Costs to be Recognized

Other	1,484	3,631	5,115
	<u>\$22,654</u>	<u>\$ 32,171</u>	<u>\$54,825</u>

The total pre-tax costs of \$55,532,000 expected to be incurred includes \$23,361,000 within the Industrial Group and \$32,171,000 within the Electronics Group. The Company expects to incur additional pre-tax costs of \$707,000, all within the Industrial Group.

(7) Dana Claim

On March 3, 2006, the Company's largest customer, Dana Corporation ("Dana"), and 40 of its U.S. subsidiaries, filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for the Southern District of New York. On August 7, 2007, the Company entered into a comprehensive settlement agreement with Dana (the "Settlement Agreement") to resolve all outstanding disputes between the parties, terminate previously approved arbitration payments and replace three existing supply agreements with a single, revised contract running through 2014. In addition, Dana provided the Company with an allowed general unsecured non-priority claim in the face amount of \$89,900,000 (the "Claim").

The Claim provided to Sypris was agreed to by Sypris and Dana as consideration for the aggregate economic impact of the various elements the two parties were negotiating. After the aggregate Claim value of \$89,900,000 was established, Sypris recorded the claim at the estimated fair value of \$76,483,000 and allocated the estimated fair value to each commercial issue negotiated. The revenues and resulting net income associated with each of those issues requiring the Company's continued involvement was deferred and will be recognized over the applicable period of the involvement. For the three months ended April 3, 2011 and April 4, 2010, the Company recognized into revenue \$1,721,000 and \$1,528,000, respectively, related to the Claim.

(8) Stock-Based Compensation

On April 1, 2011, the Company granted 317,500 restricted stock awards under a long term incentive program. These awards vest on the third anniversary of the grant date. The Company also granted 200,000 options on April 1, 2011 with a five year life and cliff vesting at three years of service. The grants did not have a significant impact on the Company's consolidated financial statements during the current period.

(9) Earnings (Loss) Per Common Share

The Company computes earnings per share using the two-class method, which is an earnings allocation formula that determines earnings per share for common stock and participating securities. Restricted stock granted by the Company is considered a participating security since it contains a non-forfeitable right to dividends.

Our potentially dilutive securities include potential common shares related to our stock options and restricted stock. Diluted earnings per share considers the impact of potentially dilutive securities except in periods in which there is a loss because the inclusion of the potential common shares would have an anti-dilutive effect.

Table of Contents

Diluted earnings per share excludes the impact of common shares related to our stock options in periods in which the option exercise price is greater than the average market price of our common stock for the period. There were 343,000 potential common shares excluded from diluted earnings per share for the three months ended April 3, 2011. All potential common shares were excluded from earnings per share for the period three months ended April 4, 2010, because the effect of inclusion would be anti-dilutive.

A reconciliation of the weighted average shares outstanding used in the calculation of basic and diluted earnings (loss) per common share is as follows (in thousands):

(11) Debt

Debt consisted of the following (in thousands):

	<u>April 3, 2011</u> (Unaudited)	<u>December 31, 2010</u>
Revolving Credit Agreement	\$ 11,000	\$ 10,000

	<u>\$ 24,305</u>	<u>\$ 21,305</u>

On May 12, 2011, the Company entered into a new credit facility (Credit Facility) totaling \$50,000,000 that supports short-term funding needs and letters of credit, which replaced the Company's Revolving Credit Agreement and Senior Notes scheduled to expire in January 2012. Loans made under the Credit Facility will mature and the commitments thereunder will terminate in May 2016. The Credit Facility provides for an option, subject to certain conditions, to increase total commitments to \$60,000,000 in the future. Borrowing availability under the Credit Facility is determined by a monthly borrowing base collateral calculation that is based on specified percentages of the value of eligible inventory, accounts receivable and machinery and equipment, less certain reserves and subject to certain other adjustments.

Obligations under the Credit Facility are guaranteed by all of our U.S. subsidiaries and are secured by a first priority lien on substantially all assets of the Company.

The Credit Facility contains a number of covenants that, among other things, limit or restrict our ability to dispose of assets, incur additional indebtedness, incur guarantee obligations, engage in sale and leaseback transactions, prepay other indebtedness, modify organizational documents and certain other agreements, create restrictions affecting subsidiaries, make dividends and other restricted payments, create liens, make investments, make acquisitions, engage in mergers, change the nature of their business and engage in certain transactions with affiliates.

In accordance with ASC 470-10-45 *Intent and Ability to Refinance on a Long-Term Basis*, the Company has classified previously scheduled current maturities in the amount of \$24,305,000 as long-term debt in its consolidated balance sheet as of April 3, 2011.

(12) Segment Data

The Company is organized into two business groups, the Industrial Group and the Electronics Group. The segments are each managed separately because of the distinctions between products, services, markets, customers, technologies and workforce skills of the segments. The Industrial Group provides manufacturing services for a variety of customers that outsource forged and finished steel components and subassemblies. The Industrial Group also manufactures high-pressure closures and other fabricated products. The Electronics Group provides manufacturing and technical services as an outsourced service provider and manufactures complex data storage systems. There was no intersegment net revenue recognized in any of the periods presented.

(13) Commitments and Contingencies

The provision for estimated warranty costs is recorded at the time of sale and periodically adjusted to reflect actual experience. The Company's warranty liability, which is included in accrued liabilities in the accompanying balance sheets, as of April 3, 2011 and December 31, 2010 was \$859,000 and \$866,000, respectively. The Company's warranty expense for the three months ended April 3, 2011 and April 4, 2010 was \$69,000 and \$122,000, respectively.

Additionally, the Company sells three and five-year extended warranties for one of its link encryption products. The revenue from the extended warranties is deferred and recognized ratably over the contractual term. As of April 3, 2011 and December 31, 2010, the Company had deferred \$2,098,000 and \$2,076,000, respectively, related to extended warranties.

The Company bears insurance risk as a member of a group captive insurance entity for certain general liability, automobile and workers' compensation insurance programs and a self-insured employee health program. The Company records estimated liabilities for its insurance programs based on information provided by the third-party plan administrators, historical claims experience, expected costs of claims incurred but not paid, and expected costs to settle unpaid claims. The Company monitors its estimated insurance-related liabilities on a quarterly basis. As facts change, it may become necessary to make adjustments that could be material to the Company's consolidated results of operations and financial condition. The Company believes that its present insurance coverage and level of accrued liabilities are adequate.

The Company is involved in certain litigation and contract issues arising in the normal course of business. While the outcome of these matters cannot, at this time, be predicted in light of the uncertainties inherent therein, management does not expect that these matters will have a material adverse effect on the consolidated financial position or results of operations of the Company.

As of April 3, 2011, the Company had outstanding purchase commitments of approximately \$12,278,000, primarily for the acquisition of inventory and manufacturing equipment. As of April 3, 2011, the Company also had outstanding letters of credit approximating \$1,490,000 primarily under the aforementioned captive insurance program.

[Table of Contents](#)**(14) Income Taxes**

The provision for income taxes includes federal, state, local and foreign taxes. The Company's effective tax rate varies from period to period due to the proportion of foreign and domestic pre-tax income expected to be generated by the Company. The Company provides for income taxes for its domestic operations at a statutory rate of 35% and for its foreign operations at a statutory rate of 30% in 2011 and 2010. The Company's foreign operations are also subject to minimum income taxes in periods where positive cash flows exceed taxable income. Reconciling items between the federal statutory rate and the effective tax rate also include state income taxes, valuation allowances and certain other permanent differences.

The Company recognizes liabilities or assets for the deferred tax consequences of temporary differences between the tax bases of assets or liabilities and their reported amounts in the financial statements in accordance with ASC 740, *Income Taxes*. These temporary differences will result in taxable or deductible amounts in future years when the reported amounts of assets or liabilities are recovered or settled. ASC 740 requires that a valuation allowance be established when it is more likely than not that all or a portion of a deferred tax asset will not be realized. The Company evaluates its deferred tax position on a quarterly basis and valuation allowances are provided as necessary. During this evaluation, the Company reviews its forecast of income in conjunction with other positive and negative evidence surrounding the realizability of its deferred tax assets to determine if a valuation allowance is needed. Based on the current forecast, the Company has established a valuation allowance against the domestic net deferred tax asset. Until an appropriate level and characterization of profitability is attained, the Company expects to continue to maintain a valuation allowance on its net deferred tax assets related to future U.S. and certain non-U.S. tax benefits.

(15) Employee Benefit Plans

Pension expense (benefit) consisted of the following (in thousands):

	Three Months Ended	
	April 3, 2011	April 4, 2010
	(Unaudited)	
Service cost	\$ 11	\$ 16
Interest cost on projected benefit obligation	579	576

	<u>\$ 125</u>	<u>\$ 81</u>

(16) Other Comprehensive Income (Loss)

The Company's accumulated other comprehensive loss consists of employee benefit related adjustments and foreign currency translation adjustments.

The components of comprehensive income (loss), net of tax, are as follows for the periods indicated (in thousands):

	Three Months Ended	
	April 3, 2011	April 4, 2010
	(Unaudited)	
Net income (loss)	\$2,052	\$(2,424)

Foreign currency translation adjustments	<u>1,574</u>	<u>2,134</u>
Total comprehensive income (loss)	<u>\$3,626</u>	<u>\$(290)</u>

[Table of Contents](#)

Accumulated other comprehensive loss consisted of the following (in thousands):

	<u>April 3, 2011</u> (Unaudited)	<u>December 31, 2010</u>
Foreign currency translation adjustments	\$ (370)	\$ (1,944)
Employee benefit related adjustments, net of tax of \$2,512 – U.S.	(11,889)	(11,889)
Employee benefit related adjustments – Mexico	(491)	(491)
Accumulated other comprehensive loss	<u>\$ (12,750)</u>	<u>\$ (14,324)</u>

For the three months ended April 3, 2011 and April 4, 2010, other expense, net includes foreign currency remeasurement losses of \$423,000 and \$540,000, respectively.

(17) Fair Value of Financial Instruments

Cash, accounts receivable, accounts payable and accrued liabilities are reflected in the consolidated financial statements at their carrying amount which approximates fair value because of the short-term maturity of those instruments. The fair value for the Senior Notes exceeded the carrying value by approximately \$966,000 at April 3, 2011. The carrying amount of debt outstanding at April 3, 2011 and December 31, 2010 under the Credit Agreement approximates fair value because borrowings are for terms of less than six months and have rates that reflect currently available terms and conditions for similar debt.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a diversified provider of outsourced services and specialty products. We perform a wide range of manufacturing, engineering, design and other technical services, typically under multi-year, sole-source contracts with corporations and government agencies principally in the markets for industrial manufacturing and aerospace and defense electronics.

We focus on those markets where we have the expertise, qualifications and leadership position to sustain a competitive advantage. We target our resources to support the needs of industry leaders that embrace multi-year contractual relationships as a strategic component of their supply chain management. These contracts, many of which are sole-source by part number and are for terms of up to five years, enable us to invest in leading-edge processes or technologies to help our customers remain competitive. The productivity, flexibility and economies of scale that can result offer an important opportunity for differentiating ourselves from the competition when it comes to cost, quality, reliability and customer service.

Results of Operations

We operate in two segments, the Industrial Group and the Electronics Group. The table presented below, which compares our segment and consolidated results for the first quarterly period of operations of 2011 to 2010, presents the results for each period, the change in those results from 2011 to 2010 in both dollars and percentage change and the results for each period as a percentage of net revenue.

- The first two data columns in the table show the absolute results for each period presented.
- The columns entitled “Year Over Year Change” and “Year Over Year Percentage Change” show the change in results, both in dollars and percentages. These two columns show favorable changes as positive and unfavorable changes as negative. For example, when our net revenue increases from one period to the next, that change is shown as a positive number in both columns. Conversely, when expenses increase from one period to the next, that change is shown as a negative number in both columns.
- The last two columns in the table show the results for each period as a percentage of net revenue. In these two columns, the cost of sales and gross profit for each are given as a percentage of that segment’s net revenue. These amounts are shown in italics.

In addition, as used in the table, “NM” means “not meaningful.”

[Table of Contents](#)

Net Revenue. The Industrial Group primarily derives its revenue from manufacturing services and product sales. Net revenue in the Industrial Group increased 35.0% or \$15.4 million for the three months ended April 3, 2011 compared to the first quarter of 2010. Increased volumes for heavy duty commercial trucks, light trucks and trailer axels have contributed to increased revenue of \$9.2 million, \$1.3 million and \$2.2 million for the first quarter of 2011, respectively. Manufacturing services for a new commercial vehicle customer resulted in increased revenue of \$1.2 million for the first quarter of 2011. Increased volumes for the off-highway business contributed \$0.4 million for the first quarter. Partially offsetting this was a decline of \$0.2 million from our specialty closure products.

The Electronics Group derives its revenue from product sales and technical outsourced services. Net revenue in the Electronics Group for the first quarter of 2011 decreased 13.5% or \$2.5 million from the same period in 2010, primarily due to the completion of several programs within our Electronic Manufacturing and Engineering Services businesses and the mix within our space business. Additionally, the continuing resolution and legislative environment have increased budget uncertainties for many of our U.S. government customers who were already facing intense budget pressures. The delay in enacting government fiscal year 2011 appropriations bills has affected our first quarter results, as it has delayed work on new awards. Partially offsetting this were increased sales of secured communication and data recording products over the prior year period.

Gross Profit. The Industrial Group's gross profit increased \$2.7 million to \$5.1 million in the first quarter of 2011 as compared to \$2.5 million in the first quarter of 2010. The increase in sales volume resulted in an increase in gross profit of approximately \$2.4 million. The Industrial Group also realized an increase in gross profit of \$0.4 million as a result of improved productivity and utilities. Partially offsetting this was a \$0.2 million cost increase due to the strengthening of the Mexican peso as compared to the prior year period.

The Electronics Group's gross profit decreased \$0.3 million in the first quarter of 2011, primarily as a result of lower revenues. Partially offsetting this were cost savings resulting from the consolidation of two Electronics Group locations. Gross profit as a percentage of revenue in the first quarter of 2011 increased to 18.5% as compared to 17.6% in the prior year period.

Selling, General and Administrative. Selling, general and administrative expense increased \$0.5 million in the first quarter of 2011 but decreased as a percentage of revenue to 9.1% from 10.1% in the first quarter of 2010.

Research and Development. Research and development costs increased \$0.5 million to \$0.6 million in the first quarter of 2011 from the prior year quarter in support of the Electronics Group's self-funded product and technology development activities. Additionally, during the first quarter of 2010, engineering efforts were redirected to assist with technical issues with existing products, which have since been resolved.

Nonrecurring Income. During the three months ended April 3, 2011, the Company recognized a gain of \$3.0 million in connection with the settlement of a dispute regarding prior year volumes with one of its customers.

Restructuring Expense, Net. As a result of the Company's restructuring program we recorded a gain of \$0.3 million related to these initiatives during the three months ended April 3, 2011, which is included in restructuring income (expense), net on the consolidated statement of operations. The gain for the period consisted of a \$0.4 million gain on the sale of assets that had previously been impaired partially offset by equipment relocation costs and mothball costs associated with closed or partially closed facilities. During the three months ended April 4, 2010, we recorded expenses of \$0.4 million related to these initiatives, which consisted of \$0.1 million in equipment relocation costs and \$0.3 million in other various charges, primarily related to mothball costs associated with closed or partially closed facilities. See Note 6 to the consolidated financial statements included in this Form 10-Q.

Interest Expense. Interest expense for the first quarter of 2011 increased \$0.1 million due to an increase in the interest rates effective January 1, 2011. Our weighted average debt outstanding decreased to \$18.3 million for the first quarter of 2011 from \$19.2 million during the first quarter of 2010. The weighted average interest rate increased to 11.6% in the first quarter of 2011 from 9.6% in the first quarter of 2010 as a result of the modification of our Credit Agreement and Senior Notes in October 2009.

[Table of Contents](#)

Income Taxes. The provision for income taxes in the first quarter of 2011 and 2010 is associated exclusively with our Mexican subsidiaries.

Discontinued Operations. On October 26, 2009, the Company sold all of the outstanding stock of its wholly owned subsidiary, Sypris Test & Measurement, for approximately \$39,000,000. In accordance with requirements of ASC 205-20-45, the results of the Test & Measurement segment have been reported as discontinued operations for all periods presented. During 2010, the Company was made aware of a potential indemnification claim from the purchaser of Sypris Test & Measurement. The Company estimates that its total liability arising from this claim will not exceed \$0.9 million, of which \$0.5 million was charged to loss for discontinued operations, net of tax for the three months ended April 3, 2011.

Liquidity, Capital Resources and Financial Condition

On May 12, 2011, the Company entered into a new credit facility (Credit Facility) totally \$50.0 million that supports short-term funding needs and letters of credit, which replaced the Company's Revolving Credit Agreement and Senior Notes scheduled to expire in January 2012. Loans made under the Credit Facility will mature and the commitments thereunder will terminate in May 2016. The Credit Facility provides for an option, subject to certain conditions, to increase total commitments to \$60,000,000 in the future. Borrowing availability under the Credit Facility is determined by a monthly borrowing base collateral calculation that is based on specified percentages of the value of eligible inventory, accounts receivable and machinery and equipment, less certain reserves and subject to certain other adjustments.

Net cash provided by operating activities (continuing operations) was \$0.7 million in the first quarter of 2011, as compared to net cash used of \$1.3 million in the same period of 2010. Accounts receivable increased within the Industrial Group and used \$11.1 million of cash as a result of an overall increase in revenue. Partially offsetting this was a decrease in accounts receivable within the Electronics Group resulting from lower sales, providing \$1.5 million of cash during the period. Inventory remained flat within the Industrial Group, while inventory increased within our Electronics Group and used \$5.5 million of cash primarily as a result of the timing of shipments and the building of inventory for sales expected later in the year. Other current assets decreased and provided \$0.5 million of cash primarily as a result of the timing of tax refunds received by our Mexican subsidiary. In the first quarter of 2011, accounts payable increased and provided \$11.3 million primarily due to increased purchases by our Industrial Group and the timing of payments to our suppliers. Accrued liabilities decreased and used \$1.3 million of cash primarily as a result of the timing of various payroll accruals.

Net cash used in investing activities was \$0.9 million for the first three months of 2011 as compared to \$0.2 million for the first three months of 2010. Net cash used by investing activities included \$1.4 million of capital expenditures partially offset by proceeds of \$0.5 million from the sale of certain idle equipment within the Industrial Group.

Net cash provided by financing activities was \$1.0 million in the first three months of 2011 due to additional borrowings under the Company's revolving credit facility. The Company's financing activities were cash neutral for the first three months of 2010.

At April 3, 2011, we had total availability for borrowings and letters of credit under the Revolving Credit Agreement of \$8.5 million along with an unrestricted cash balance of \$17.4 million, which provides for total cash and borrowing capacity of \$25.9 million. Approximately \$7.6 million of the unrestricted cash balance relates to our Mexican subsidiaries. Maximum borrowings available under the Revolving Credit Agreement are \$21.0 million, and standby letters of credit up to a maximum of \$15.0 million may be issued under the Revolving Credit Agreement, of which \$1.5 million were issued at April 3, 2011.

We also had purchase commitments totaling approximately \$12.3 million at April 3, 2011, primarily for inventory and manufacturing equipment.

We believe that sufficient resources will be available to satisfy our cash requirements for at least the next twelve months. Cash requirements for periods beyond the next twelve months depend on our profitability, our ability to manage working capital requirements and our rate of growth. If our largest customers experience financial difficulty, or if working capital and capital expenditure requirements exceed expected levels during the next twelve

[Table of Contents](#)

months or in subsequent periods, we may require additional external sources of capital. There can be no assurance that any additional required financing will be available through bank borrowings, debt or equity financings or otherwise, or that if such financing is available, it will be available on terms acceptable to us. If adequate funds are not available on acceptable terms, our business, results of operations and financial condition could be adversely affected.

Off-Balance Sheet Arrangements

We do not have any material off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

See the information concerning our critical accounting policies included under Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operation - Critical Accounting Policies in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010. There have been no significant changes in our critical accounting policies during the first quarter of 2011.

Forward-looking Statements

This quarterly report, and our other oral or written communications, may contain "forward-looking" statements. These statements may include our expectations or projections about the future of our industries, business strategies, potential acquisitions or financial results and our views about developments beyond our control, including domestic or global economic conditions, trends and market developments. These statements are based on management's views and assumptions at the time originally made, and, except as required by law, we undertake no obligation to update these statements, even if, for example, they remain available on our website after those views and assumptions have changed. There can be no assurance that our expectations, projections or views will come to pass, and undue reliance should not be placed on these forward-looking statements.

A number of significant factors could materially affect our specific business operations and cause our performance to differ materially from any future results projected or implied by our prior statements. Many of these factors are identified in connection with the more specific descriptions contained throughout this report. Other factors which could also materially affect such future results currently include: declining revenues in our aerospace and defense business lines as we transition from legacy products and services into new market segments and technologies; adverse determinations by government contracting officers, especially regarding the potential retrofit of certain electronic products with respect to alleged "latent defects," which are disputed by the Company; potential liabilities associated with discontinued operations, including post-closing indemnifications or claims related to business or asset dispositions; breakdowns, relocations or major repairs of machinery and equipment; pension valuation, health care or other benefit costs; labor relations; strikes; dependence on, recruitment or retention of key employees; union negotiations; changes or delays in government or other customer budgets, funding or programs; reliance on major customers or suppliers, especially in the automotive or aerospace and defense electronics sectors; the cost, efficiency and yield of our operations and capital investments, including working capital, production schedules, cycle times, scrap rates, injuries, wages, overtime costs, freight or expediting costs; our inability to successfully launch or sustain new or next generation programs or product features, especially in accordance with budgets or committed delivery schedules; disputes or litigation, involving customer, supplier, lessor, landlord, creditor, stockholder, product liability or environmental claims; the costs and supply of debt, equity capital, or insurance; fees, costs or other dilutive effects of refinancing, compliance with covenants in, or acceleration of, our loan and other debt agreements; potential impairments, non-recoverability or write-offs of goodwill, assets or deferred costs, including deferred tax assets in the U.S. or Mexico; cost and availability of raw materials such as steel, component parts, natural gas or utilities; volatility of our customers' forecasts, financial conditions, market shares, product requirements or scheduling demands; adverse impacts of new technologies or other competitive pressures which increase our costs or erode our margins; the effects of a continuing economic downturn which could reduce our revenues, negatively impact our customers or suppliers and materially, adversely affect our financial results; failure to adequately insure or to identify environmental or other insurable risks; inventory valuation risks including obsolescence, shrinkage, theft, overstocking or underbilling; revised contract prices or estimates of major contract costs; risks of foreign operations; currency exchange rates; changes in licenses, security clearances, or other

[Table of Contents](#)

legal rights to operate, manage our work force or import and export as needed; weaknesses in internal controls; the costs of compliance with our auditing, regulatory or contractual obligations; regulatory actions or sanctions; war, terrorism, computer hacking or other cyber attacks, or political uncertainty; unanticipated or uninsured disasters, losses or business risks; inaccurate data about markets, customers or business conditions; or unknown risks and uncertainties and the risk factors disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and thus are not required to report the quantitative and qualitative measures of market risk specified in Item 305 of Regulation S-K.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* Based on the evaluation of our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 Rules 13a-15(e) or 15d-15(e)) required by Securities Exchange Act Rules 13a-15(b) or 15d-15(b), our Chief Executive Officer and our Chief Financial Officer have concluded that as of the end of the period covered by this report, our disclosure controls and procedures were effective.

(b) *Changes in internal controls.* There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time-to-time, the Company is involved in litigation matters arising in the normal course of business. Neither we, nor any of our subsidiaries, are currently subject to any material legal proceedings, nor, to our knowledge, is any material legal proceeding currently threatened against us.

ITEM 1A. RISK FACTORS

Information regarding risk factors appears in “MD&A — Forward-Looking Statements,” in Part I — Item 2 of this Form 10-Q and in Part I — Item 1A of our Report on Form 10-K for the fiscal year ended December 31, 2010.

In addition, the Company’s Electronics Group has received notice from one of its government customers that certain electronic circuit cards shipped to the government are alleged to have contained latent defects materially affecting their performance. The Company has shared extensive data with the government that we believe factually contradicts the government’s position. The government has acknowledged receipt of this new data, but has not yet formalized its response to Sypris. The government has committed to consider Sypris’ factual arguments thoroughly before issuing a contracting officer’s determination. However, the government has not shared its view of any potential repair or retrofit liability, and there can be no assurances that the government will concur with the Company’s position. Our inability to successfully resolve this issue with the government could materially adversely affect our operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the first three months of 2011, restrictions on 251,352 restricted shares expired. As a result, 87,143 shares were withheld by the Company to satisfy tax withholding obligations. The common shares withheld were immediately cancelled. The following table summarizes our repurchases during the first quarter ended April 3, 2011 (which consisted entirely of shares withheld to satisfy withholding taxes):

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
